YOUR EXPERT PARTNER FOR SMART⁺ LIGHTING

LEDVANCE APM SMART⁺ WIFI App allows seamless connection via Wi-Fi so you can control the lights around your home effortlessly with just a phone. Moreover, LEDVANCE smart lamps with Network Bridge Technology extend Wi-Fi communications to a maximum of 60 devices, ensuring smooth connection without overloading the router.

SMART⁺ WIFI ADVANTAGES

Just say "Hey Google/Alexa/Siri,
... dim the lights"
... set brightness to 100%"
... set the color to pink?"
... set the color temperature to 100%"

1 SMART⁺ WIFI CONTROL – APP & VOICE

Is compatible with LEDVANCE APM SMART⁺ WIFI App, Amazon Alexa, Google Assistant and Apple Siri Shortcut, allowing you to control SMART⁺ WIFI Lamps with both apps and your voice.

2 RGB MODE – OVER 16 MIL COLOURS

At a tap of a finger, illuminating the room with a colour that is just right is as simple as that, and is only limited by your imagination.

3 DIMMABLE

Turn down the lights whenever you like with the dimming function.

4 OPTIMAL WHITE-TO-WHITE CONTROL

Easily adjust the atmosphere of a room to switch between a comforting warm white and an energising daylight to set the scene for any activity.

2700K

6500K

WARM WHITE

DAYLIGHT

5 HUMAN CENTRIC LIGHTING (HCL)

With special LED chips that mimics the natural light spectrum, complicated light schedules and scenes can be set to give you the right light for the right activity.

EASY & QUICK SETUP

Setting up your smart lamps is a simple task with the help of intuitive apps and the removal of the need for additional hardware.
