PERFORMANCE CLASS SELECTABLE TRACK LIGHTS

- The LEDVANCE Performance Class Track Light is 4-CCT selectable and designed to offer high-quality illumination in commercial and industrial applications.
- Offered in a variety of fixed beam angles and wattages, we will also offer zoom technology - an addition that allows for customized beam angles enabled by twisting the head of the luminaire.
- Our product family represents most application needs and includes optional accessories in black and white finishes.

BLAZE GUARD™ FLAME RESISTANT SELECTABLE SLIM MICRODISK

- This product was built to stand the heat! Tested to UL263 standards, The Blaze Guard Microdisk is capable of withstanding flames of up to 1100 °C for at least 2 hours.
- Since lighting codes are often written by fire marshals with their attention to safety, this product was built to accommodate stringent lighting codes all while offering 5 CCT selectability and high quality light with >90 CRI.

PERFORMANCE CLASS MULTIPURPOSE UTILITY LIGHT

- Our highest lumen medium base bulb is here to stay! Offered in 60, 80, and 120W versions, these lamps are now offered in 1/SKU colored packaging making it appropriate for distributor shelves.
- The utility light is essentially the candy bar in the check-out line of the grocery store. Contractor friendly and versatile, the adjustable wings allow for filling temporary work spaces with a great deal of illumination.

PERFORMANCE CLASS SLIM CCT SELECTABLE MICRODISK

- The CCT Selectable Slim Microdisk family is holistic and built for our trade customer's needs.
- Stainless steel clips, 5-CCT selectability, and a variety of finishes and accessories ensure that this product responds to multiple end user needs.
- Offered in 3/4/6/8/ and 12" models, the microdisk is Energy Star rated and Title 24 listed ensuring compliance with local codes and providing a high-quality, durable source of illumination.

PERFORMANCE CLASS DOWNLIGHT GIMBAL

- Originally offered with a white finish only as our Hi-PerformanceLED downlight, it is now available in black and branded LEDVANCE.
- Modern and stylish, the gimbal really accents what it illuminates with a 45° beam of illumination. The inclusion of the gimbal works to ensure that light is not wasted, but well used.
- A holistic black housing ensures that the product offers a quality appearance even when the gimbal is adjusted.

PERFORMANCE CLASS DUAL SELECTABLE RT DOWNLIGHTS

- Our tried and true UltraLED Dual Selectable Downlights are getting a facelift and being transitioned to the LEDVANCE brand. The specs, product offering, and available accessories are all remaining the same.
- The change does give us the opportunity to change the packaging strategy. These new SKUs will fit into the same LEDVANCE branding as the rest of our current downlight portfolio meaning that we can provide a unified and holistic company image on distributor shelves.

VALUE CLASS LINEAR HIGH BAY 6A

- The new generation of LEDVANCE Linear High Bays is arriving soon!
- With a DLC Premium listing, these fixtures are wide distribution producing 4000K or 5000K color temperature with 120-347V.
- The option of an Emergency Battery Back-up is available through Made to Order. There are various accessories, such as a few mount options, wire guard and sensor, that expand the applications for the Linear High Bay.

VALUE CLASS UFO HIGH BAY 4A

- UFO High Bay 4A is arriving in full force!
- Available in black and white finishes, the fixture provides a DLC Premium listing in 100W, 150W, or 200W.
- The accessories is extensive containing various mounts, wire guards, refractors and field installable sensors or emergency battery back-ups!

EV CHARGER

PHASE EV™

- Perfect for facility managers of office, multi-residential, retail, education, hospitality, and other business locations, LEDVANCE PHASE EV Level 2 Commercial Charging Station is offered in wall mounted units or a free-standing pedestal where two units can be mounted side-by-side or back-to-back.
- With powerful software integration from AmpUp, LEDVANCE PHASE EV combines performance and value to deliver fast charging at an affordable price.

LAMPS

LEDlescent™ XP® LED T8 UL TYPE B LAMPS

- Introducing LEDlescent XP® Extended Performance ballast-free 4ft T8 Lamps.
- These UL Type B lamps bypass the existing ballast eliminating any ballast compatibility issues and feature our longest life for any of our 4ft lamps at 70,000 hours.
- These lamps reduce overall labor, maintenance, and life cycle cost by extending the re-lamping cycles and offering a 7 year warranty.

LEDlescent™ LED T8 8FT BALLAST-FREE LAMPS

- LEDlescent UL Type B Ballast-Free one piece. 8ft T8 lamps are back to the future having one continuous 8ft glass lamp to replace traditional T8 or T12 lamps.
- These lamps are DLC 5.1 so you can capitalize on additional savings where utility rebates are available.
- For applications where the 2-piece lamps are not desirable, install these lamps in applications using T8 or T12 Slimline (Fa8 base) by bypassing the existing ballast, utilizing existing sockets (in good condition) and enjoy your energy efficient T8 lamps.

SubstiTUBE™ LED T5HO UL TYPE A LAMPS

- New LED UL Type A, ballast compatible T5HO lamps are now DLC listed allowing for an energy saving alternative to fluorescent lamps while also taking advantage of utility rebates to minimize overall project costs where available.
- These lamps retrofit directly on the existing fluorescent ballast for a quick installation and instant LED upgrade.

SubstiTUBE™ LED T5HE UL TYPE A LAMPS

- This family of UL Type A LED Lamps includes the upgraded 4ft lamp which is listed on DLC as well as the 2ft and 3ft lengths.
- These lamps retrofit directly on the existing ballast for the quickest retrofit opportunity to replace traditional T5 high efficiency lamps.

LEDlescent™ LED T5HO UL TYPE B LAMPS

- Introducing the new LEDlescent 2ft and 4ft T5HO UL Type B lamps.
- The 2ft lamps compliment 4ft T5HO which is now listed on DLC and can be paired to replace traditional fluorescent lamps in applications to maximize energy savings.
- Easy installation includes bypassing the existing ballast and utilizing the existing sockets.
- 4ft lamps qualify for rebates where available.

LEDlescent™ LED T5HE UL TYPE B LAMPS

- This family of UL Type B LED Ballast-Free lamps include the upgraded 4ft which is listed on DLC as well as the 2ft and the 3ft lamps which operate on 120-277VAC.
- Install these lamps by bypassing the existing ballast into existing applications where T5 high efficient fluorescent lamps are used to achieve energy saving without the hassle of ballast incompatibility issues.

BALLASTS

LEDVANCE T8 INSTANT START UNV

- LEDVANCE is proud to introduce its electronic fluorescent ballast.
- Ballast suitable for T8 lamps, they are covered by our 5 year NLB trusted warranty.
- Electronic ballast you can rely on, they should be on the list for the next lighting project!

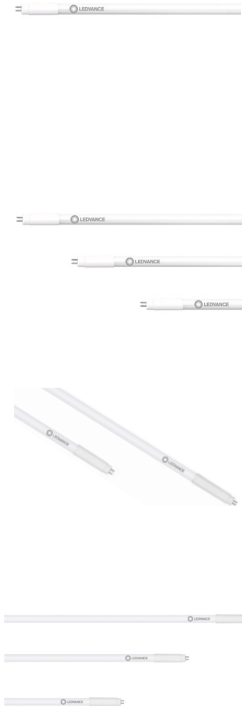

LEDVANCE T5 PROGRAM RAPID START UNV

- LEDVANCE is proud to introduce its electronic fluorescent ballast.
- Ballast suitable for T5 lamps, they are covered by our 5 year NLB trusted warranty.
- Electronic ballast you can rely on, they should be on the list for the next lighting project!

SubstiKIT™ LED T8 TYPE C SYSTEM - DRIVERS

- The SubstiKIT LED T8 Type C family is growing with more driver options!
- For optimal performance, these drivers were designed to be exclusively paired with the SubstiKIT lamps. This Type C system now includes 347V along a new set of 120-277V drivers.
- These new drivers are also equipped to be LINK Bluetooth mesh compatible. The SubstiKIT LED T8 Type C system of lamps and drivers is the full package and then some!
