A FULL PORTFOLIO OF DOWNLIGHT PRODUCTS

With a broad selection of dependable, high performance downlights for residential, commercial and professional applications, **LEDVANCE** can help you get your lighting project done on time and on budget. Choose from six product families, including:

- Downlight Hardwired
- Slim Microdisk
- RT Screw Base
- Light Disk
- Downlight Gimbal
- Slim Downlight

You'll find them all in this guide, along with links to detailed selection, ordering and installation information.

QUICKER, EASIER SELECTION

Every job has its choices. From simple lighting tasks to the most complex and demanding, the right product selection is an important part of customer satisfaction – and profitability.

Whatever the requirement, the LEDVANCE luminaire portfolio has you covered. And to help you quickly find the best lighting product for the job, we've grouped our luminaires into three color-coded classes: Superior Class, Performance Class and Value Class.

SUPERIOR CLASS DUAL SELECTABLE DOWNLIGHT

Combining a first-rate user experience with exceptional versatility, these dual selectable downlights are ideal for a wide range of applications and installation methods. They're suitable for dry, damp, and wet locations, and offer a low UGR (<19). With the exception of 3000lm models, all are air-tight certified and IC rated.

CONTRACTOR BENEFITS

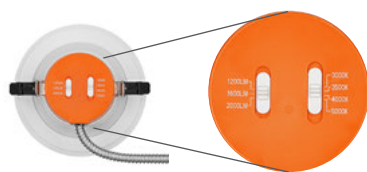

- Wattage/Lumen selectable: Five CCTs and three lumen levels give you maximum on-site versatility and easier inventory management; a single product does the job of 15 SKUs!
- Easily interchangeable reflectors let you quickly change from semi-specular to specular or white reflector
- Fast, easy installation with quick connectors and 120-347V and 120V only options

PERFORMANCE CLASS DUAL SELECTABLE DOWNLIGHT

Here's LEDVANCE quality you can count on, in a versatile, high-performing downlight that's optimized for new construction as well as retrofit applications. Offering both wattage and color selectability, the luminaire comes with a 50,000 hour rated lifetime and 5-year warranty.

CCT and Lumen selectable via a switch on the back of the luminaire

CONTRACTOR BENEFITS

- Wattage/Lumen selectable: Four CCTs and three lumen levels give you maximum on-site versatility and simplified inventory management
- High quality uniform light with CRI>90, 50,000h rated lifetime and 5-year warranty
- Ready for easily field-installable Emergency Battery Backup

PERFORMANCE CLASS FLAME RESISTANT SELECTABLE SLIM MICRODISK

Tested to UL263 standards for flame resistance and rated for fire-proof applications, these slim profile LED downlights ensure compliance with the most stringent safety standards, while still delivering high-quality, customizable light. They feature a remote driver, and share the same general specifications as our traditional Microdisk family, including >90 CRI and 5 CCT selectability. Robust rubberized clips are resistant to breakages and damage.

CCT selectable via a switch on the driver

CONTRACTOR BENEFITS

- CCT selectability allows easy on-site adjustment and simplifies inventory management
- All necessary hardware and quick connectors are included with each SKU
- Durable stainless steel clips and safety-rated FT6 cable allow quick, hassle-free installation

PERFORMANCE CLASS SLIM CCT SELECTABLE MICRODISK

These ENERGY STAR® listed, slim profile LED downlights are designed for quick, easy installation in new construction and retrofits, including wet locations. They feature a remote driver, and are available in multiple wattages for 3", 4", 6", 8" and 12" ceiling cut-outs. Choose either black or white finish, and customize with available color trim rings. With >90 CRI and five CCT selectability (2700, 3000, 3500, 4000, or 5000K), they are an excellent and versatile choice for a broad range of applications.

CCT selectable via a switch on the driver

CONTRACTOR BENEFITS

- All necessary hardware and quick connectors are included with each SKU
- Durable stainless steel clips and safety-rated FT6 cable allow quick, hassle-free installation
- Optional color trim rings are available to match décor

Hi-PerformanceLED™ Slim MICRODISK™

Responding to industry needs for 277V for certain applications, this slim profile LED Microdisk operates at 120-277V universal input voltage. It features a remote driver and CCT selectability, and is IC rated. The super-thin design allows installation directly under joists in new and remodel construction. The luminaire delivers uniform, glare free illumination, and instant on with full light and consistent lamp to lamp color – making it an ideal choice for bathrooms/kitchens, closets/attics, soffits, stairwells, or corridors.

CONTRACTOR BENEFITS

- CCT selectability allows easy on-site adjustment and simplifies inventory management
- Additional mounting accessories such as frames and extension cables are available, further increasing the range of applications
- No housing needed for installation; remote junction box and quick connectors are included

PERFORMANCE CLASS CCT SELECTABLE DOWNLIGHT GIMBAL

With a narrow 45° beam of illumination, this gimbal LED downlight really accents what it illuminates. A modern and stylish example of our new generation of slim accent luminaires, it offers energy savings up to 88%, as well as excellent high color rendering (CRI 90). It also lets you select the preferred brightness thanks to its phase-cut dimming which ranges from 10% to 100%. The holistic black finish ensures that the product offers a quality appearance even when the gimbal is adjusted.

CCT selectable via a switch on the driver

CONTRACTOR BENEFITS

- CCT selectability (2700, 3000, 3500, 4000 or 5000K) allows easy on-site adjustment and simplifies inventory management
- Lenses tilt at 90°, making the luminaire ideal for a wide range of residential, hospitality or retail applications
- No housing needed for installation; remote junction box and quick connectors are included

Hi-PerformanceLED™ Downlight Gimbal

An ideal choice for wall-washes and in applications requiring a high degree of customization, this versatile LED downlight offers a crisp, tight 45° beam of illumination that can be adjusted up to 90°. The white finish extends to the back of the fixture, so that even when the beam is adjusted, there is no gap in color from the trim to the back of the housing.

CCT selectable via a switch on the driver

CONTRACTOR BENEFITS

- CCT selectability (2700, 3000, 3500, 4000 or 5000K) allows easy on-site adjustment and simplifies inventory management
- Lenses tilt at 90°, making the luminaire ideal for a wide range of residential, hospitality or retail applications
- No housing needed for installation; remote junction box and quick connectors are included

PERFORMANCE CLASS SELECTABLE SCREW-BASE DOWNLIGHTS

The new Performance Class CCT Selectable Screw-Base Downlights deliver high efficiency, instant-on LED lighting with smooth or baffle reflectors, and are ideal for retrofit applications in bedrooms, kitchens or bathrooms. They offer a 50,000 hour lifetime, 5-year warranty, are ENERGY STAR® listed and CEC compliant. Optional color trim rings – which are also compatible with our Value Class Screw-Base Downlights – let you customize to match décor.

CCT and Lumen
selectable via a switch on
the back of the luminaire

CONTRACTOR BENEFITS

- CCT selectability (2700, 3000, 3500, 4000 or 5000K) allows easy on-site adjustment and simplifies inventory management
- Lenses tilt at 90°, making the luminaire ideal for a wide range of residential, hospitality or retail applications
- Lumen selectable models reduce the number of SKUs needed

VALUE CLASS SCREW-BASE DOWNLIGHTS

Our new Value Class Screw-Base Downlights are your most economical and reliable solution for residential applications. Ideal for both retrofit and new construction, they're easily installed in a housing can, and are available in 4" and 5/6", with smooth and baffle reflectors. They are ENERGY STAR® listed, CEC compliant, and offer a 25,000 hour lifetime.

CONTRACTOR BENEFITS

- High quality light with 3-year warranty for confident, headache-free installation
- Very easy to install in 4", 5" or 6" housings, with screw base and quick connectors in the wire
- Also suitable for closets and wet rated locations

PERFORMANCE CLASS LED LIGHT DISK

The versatile new LEDVANCE LED Light Disk was developed to speed up and simplify installation in new construction and retrofit applications. It can be flush mounted in 3" and 4" junction boxes or installed in 5/6" housing cans. All the mounting accessories, including an E26 screw base, are included in the packaging. The product is available in 900 and 1200 lumens, and five CCT selectable simply by rotating the diffuser to adjust light color. It is also dimmable and wet rated.

CONTRACTOR BENEFITS

- CCT selectability (2700, 3000, 3500, 4000 or 5000K) allows easy on-site adjustment and simplifies inventory management; single 3000K version also available
- Fast, easy hardwired or screw base installation housing cans, with all mounting hardware included
- Optional color trim rings are available to match décor

Hi-PerformanceLED™

Slim Downlight Selectable

This luminaire was designed for residential, hospitality, retail and other low bay applications. It offers quick, easy installation with the hybrid installation style: screw base and torsion springs for recessed cans, and hardwire with mounting plate for flush ceiling mount. All mounting hardware for both styles of installation are included.
