PERFORMANCE CLASS DUAL SELECTABLE ROUND GARAGE/CANOPY

- Redefining versatility and innovation with ground breaking optical technology that meets both Garage and Canopy requirements—no switches or lens swaps needed.
- Paired with CCT and wattage selectability, embedded uplight to reduce the 'cave effect,' and Controls Ready integration, it's the ultimate solution for efficient, adaptable, and visually balanced lighting.

PERFORMANCE CLASS DUAL SELECTABLE SQUARE CANOPY/GARAGE

- Redefining versatility and innovation with ground breaking optical technology that meets both Garage and Canopy requirements—no switches or lens swaps needed.
- Paired with CCT and wattage selectability, embedded uplight to reduce the 'cave effect,' and Controls Ready integration, it's the ultimate solution for efficient, adaptable, and visually balanced lighting.

OPTISELECT

PERFORMANCE CLASS OPTI-SELECT NON-CUTOFF WALL PACK

- Built for maximum versatility with the revolutionary OPTI-SELECT technology, allowing beam adjustment (Narrow, Medium and Wide) at the flip of a switch - effortless and perfect throw without swapping lenses.
- Built for maximum adaptability, it's also CCT and Wattage Selectable, Controls Ready and features an integrated photocell.
- From walkways and building facades to parking lots and perimeters, the OPTI-SELECT WALL PACK simplifies installation, enhances efficiency, and provides unmatched flexibility.

OPTISELECT

PERFORMANCE CLASS OPTI-SELECT CUTOFF WALL PACK

- Delivering unmatched precision with its full cut-off design, eliminating uplight to reduce glare and light pollution, while the revolutionary OPTI-SELECT technology lets you instantly switch between T2, T3, and T4 distributions via switch—no lens swaps required.
- With CCT and wattage selectability, an integrated photocell, and plug-and-play controls compatibility, it's the ultimate solution for efficient, adaptive outdoor lighting.

PERFORMANCE CLASS WORK LIGHT

- The most unbeatable work light in the industry! Designed for maximum efficiency, durability, and portability, this powerhouse delivers 360° omnidirectional lighting, ensuring full worksite coverage with lower power consumption and significant energy savings.
- It is built to handle the toughest job sites. With ultra-bright LED technology, rugged durability, and all-day battery life, this work light ensures you stay productive, no matter the conditions.

PERFORMANCE CLASS EZ SWAP™ PANEL RETROFIT KIT

LINE EXTENSION: 1X4

- Designed to simplify installations, this family now includes three sizes—1X4, 2X2, and 2X4—along with EMBB options for added versatility.
- The torsion spring design slides within the panel's channels for easy and flexible installation into existing traditional fixtures.
- Choose between 3 CCT options and 3 Lumen outputs all within the same product making inventory management much more simplified. Offered as a 2PK option to minimize the hassle of dealing with packaging material at the job site.

OPTISELECT

VALUE CLASS OPTI-SELECT UFO HIGH BAY

- A versatile and thoughtfully designed lighting solution.
- Its ability to adapt with selectable wattage, CCT, and even distribution modes—whether wide, medium, or for aisle ways—its perfect for tailoring illumination to specific spaces and needs.
- It can be installed in any environment seamlessly.

OPTISELECT

VALUE CLASS OPTI-SELECT LINEAR HIGH BAY

- An outstanding combination of style, precision, and adaptability.
- The ability to control light distribution, wattage, and CCT with the OPTI-SELECT technology is a game-changer for creating tailored lighting experiences.
- This fixture can suit virtually any space's needs, all while maintaining a sleek design.

VALUE CLASS VOLUMETRIC TROFFER/ DOOR KIT 5B

- This family is evolving with the launch of the 5B generation, bringing subtle yet valuable enhancements while maintaining its entry-level solution.
- The new design is slimmer, reducing bulk and weight to make installation easier and more efficient.
- Wattage selectability provides greater flexibility, allowing more options within a single SKU to simplify inventory management.
- Additionally, EMBB and other MTO options can be made available, ensuring a customizable solution to meet diverse project needs.

TROFFER

DOOR KIT

VALUE CLASS PANEL WITH SNAP IN SENSOR

- Get your customers excited with our new Sensor Ready Panels, designed for effortless integration and enhanced energy efficiency.
- These innovative panels feature a simple snap-in design for a stand-alone PIR motion sensor with daylight harvesting, connecting seamlessly via a classic 3.5mm audio jack—eliminating the need for hardwiring.
- Optional remotes are available separately, allowing users to easily adjust sensor settings.
- With various rebate opportunities to maximize savings and a convenient 2/SKU 2/CS packaging configuration to reduce job site waste, these panels offer a smart, streamlined solution for any installation.

VALUE CLASS FLUSH MOUNT PANEL

- Designed to unify our portfolio with cohesive specifications and enhanced performance.
- This latest solution now includes all three sizes—1x4, 2x2, and 2x4—providing greater flexibility for various applications.
- With dual selectability for both CCT and wattage, users can easily customize their lighting to meet specific needs.
- Additionally, the panels feature a universal voltage range of 120-347V, along with 0-10V dimming, NSF certification, and DLC Standard compliance.
- With these advancements, our Flush Mount Panels offer a more adaptable lighting solution for any space.

LEDVANCE NEW DRIVERS

DRIVERS

tapTronic

tapTronic

tapTronic™ 2 CHANNEL DRIVERS

- Field-Programmable, Near-Field Communication NFC LED Drivers.
- Within the industry's familiar linear housing types, we introduce the 2 channel models.
- Our free programming software app can be downloaded on iOS or Android in seconds on any smartphone.
- The programming is easy and simple to follow within any selectable four languages.

tapTronic™ HUV / UNH DRIVERS

LINE EXTENSION

- Field-Programmable, Near-Field Communication NFC LED Drivers.
- This family covers linear, compact, and outdoor drivers.
- These drivers are available in the industry's most desirable wattages.
- Our free programming software app can be downloaded on iOS or Android in seconds on any smartphone.
- The programming is easy and simple to follow within any selectable four languages.
