### A19 Dusk to Dawn 5CCT Selectable

- Our Dusk to Dawn lamps have a built-in light sensor that automatically turns the light on under low-light conditions.
- Use in hallways, porches, garages and more! This product line comes in five different color temperature settings, letting you choose the best option to retrofit your space.

### A19 Motion Sensor 5CCT Selectable

- SYLVANIA A19 Motion Sensor lamp detects motion and illuminates.
- The built-in motion sensor has a 360° angle of sensing, with a range of 10-15 feet.
- The lamp also has a dusk to dawn sensor that only activates the motion sensor when ambient light is not present, making the lamp the most energy efficient.
- The LED Motion Sensor A19 is ideal for illuminating porches, corridors, balconies and stairs without the need to physically turn on the light switch.
- The lamp can also be used for security and safety purposes when an area is hazardous without any lighting.

### Contractor Series 5CCT Selectable

- SYLVANIA Contractor Series CCT Selectable Lamps come standard with five different color temperature options, allowing you to choose the best color in your space.

### White Filament

- SYLVANIA white filament line offers a variety of shape options and unique filament designs for a vintage look with modern technology.

### White Filament A19, B10 and ST19 5CCT Selectable

- SYLVANIA white filament line CCT Selectable Lamps come in five different color temperature settings, letting you choose the best option to retrofit your space.
- There are a variety of shape options and unique filament designs for a vintage look with modern technology.

TruWave®

### TruWave® A19 - 100W

- Controls blue wavelengths to reduce glare and eye strain, improving readability and supporting a healthier sleep-wake cycle.
- Ideal for applications requiring clean light and accurate, vivid color rendering without sacrificing light output.

TruWave®

### TruWave® B10 - 75W and 100W

- Controls blue wavelengths to reduce glare and eye strain, improving readability and supporting a healthier sleep-wake cycle.
- Ideal for applications requiring clean light and accurate, vivid color rendering without sacrificing light output.
