Light is easy to use
Easy, modern Bluetooth®
DALI lighting solutions

Light is OSRAM
Easy-to-use light management with Bluetooth® interface

DALI ACU BT (DALI App Control Unit Bluetooth®): A simple Bluetooth® control device for standard or Tunable White LED drivers or DALI ECGs. Comfortable control via Bluetooth® and smartphone with a free-of-charge app as well as easy plug-and-play start-up. Using DALI has never been easier, and never more flexible.

**Flexible**
Installation and planning of this energy-efficient system is extremely easy and convenient. DALI ACU BT can be mounted behind a classic pushbutton in a flush-mounted device box or directly into a luminaire.

**Easy light management via app**
DALI ACU BT can be controlled easily via app: Intuitive user control of light levels and color temperatures as well as storage of individual scenes. Moreover, classic control by standard pushbuttons is still available: ON/OFF or dimming.

**Expandable and installation-friendly**
Sensors and pushbutton couplers are simply wired via DALI. The components are directly powered via DALI and do not need additional mains supply. An unlimited number of standard pushbuttons can be connected in combination with pushbutton couplers.

**Wide variety of applications**
With DALI ACU BT, you can control up to 32 DALI LED drivers and up to 4 DALI sensors can be integrated into the system. DALI ACU BT is best suited for individual lighting:

- Conference and meeting rooms
- Offices
- Living quarters
- Hospitality and hotel business

For Android

For iOS
Easy installation in standard flush boxes in four steps

Turning standard pushbuttons into fully functional DALI control units.

A simple product for numerous possibilities
— Dimming and switching of any type of DALI luminaires via app and standard pushbutton; additional color temperature control (Tunable White) is possible via app
— Automatic or manual storage of the switch-on level
— Daylight and presence-dependent lighting control through connection of additional OSRAM DALI sensors; automatic shutdown with freely adjustable delay time

Standard application
Pure manual control of up to 32 DALI LED drivers

Special application
Combination of manual control and light and motion sensors

---

01 Connect the DALI ACU BT to the mains wires as well as to the DALI wires of the LED drivers/ECGs.
02 Place the DALI ACU BT into the flush box.
03 Connect the DALI ACU BT to the pushbutton.
04 Mount the cover of the pushbutton.

---

Length of the DALI control cable: up to 300 m
Length of the pushbutton cable: up to 50 m

Are you planning an installation in suspended ceilings with a strain relief option?

For this, we recommend the DALIeco BT control unit, which offers the same functionality and specifications as the DALI ACU BT with different geometry and strain relief option with the ECO CI KIT.
