

# PRODUCT DATASHEET

## FL MAX POWER SUPPLY P 900W WAL

FLOODLIGHT MAX POWER SUPPLY | Floodlight Max power supplies

PERFOR-  
MANCE  
CLASS

### Areas of application

- Outdoor use (IP66)
- Lighting of large areas
- Sports facilities
- Construction areas

### Product benefits

- Highly robust and durable
- Quick and easy wiring, due to tool-free housing opening
- Optimized product logistic, luminaire heads and power supplies to be ordered separately in stand-alone packaging
- 5 years guarantee

### Product features

- Power supply for Floodlight Max luminaire heads
- Joint or separate installation with Floodlight Max luminaire head with up to 40 m distance
- M20 and M25 PG glands for mains cable feed-in
- LED-module wiring by means of pre-installed fast quick release connector
- High surge protection: up to 10 kV (L/N-PE and L-N)

TECHNICAL DATA

Electrical data

|   |             |
|---|-------------|
| Nominal wattage   | 900.00 W    |
| Nominal voltage   | 200...277 V |
| Mains frequency   | 50...60 Hz  |
| Nominal current   | 3900 mA     |
| Inrush current  | 135 A       |
| Inrush current time T <sub>h50</sub>                        | 1200 µs     |
| Max. number of luminaires per miniature circuit breaker C16 | 1           |
| Power factor λ  | 0.95        |
| Total harmonic distortion                                   | < 20 %      |
| Protection class  | I           |

Photometrical data

|                                 |   |
|---------------------------------|---|
| Luminous intensity              | - |
| Flickering metric (Pst LM)      | - |
| Stroboscope effect metric (SVM) | - |

Dimensions & Weight

|                |            |
|----------------|------------|
| Length         | 270.00 mm  |
| Width          | 447.00 mm  |
| Height         | 166.00 mm  |
| Product weight | 10500.00 g |

FL MAX POWER SUPPLY P 900W,  
1200W

Materials & Colors

|  |           |
|--|-----------|
| Cover material                             | Aluminium |
| Glow Wire Test according to IEC 60695-2-12 | 650 °C    |
| Mercury content                            | 0.0 mg    |

Application & Mounting

|  |                     |
|--|---------------------|
| Ambient temperature range              | -30...+50 °C        |
| Temperature range at storage           | -40...+70 °C        |
| Type of protection                     | IP67                |
| Protection class IK (shock resistance) | IK08                |
| Dimmable                               | No                  |
| Mounting location                      | Wall / Pole / Floor |
| With light source                      | No                  |
| Replaceable light source               | No                  |

### Lifespan

|                            |        |
|----------------------------|--------|
| Number of switching cycles | 100000 |
|----------------------------|--------|

### Control gear

|                |         |
|----------------|---------|
| Output current | 4740 mA |
|----------------|---------|

### Certificates & Standards

|  |                            |
|--|----------------------------|
| Standards  | CE / CB / ENEC / EAC / EPD |
| Luminaire with limited surface temperature, "D sign" | No                         |
| Ball shot safe                                       | Yes                        |
| EPD  | LEDV-00007-V01.01-EN       |

## EQUIPMENT / ACCESSORIES

- Extension cables and mounting kit for pole installation of power supply in preparation

### Safety advice

- Floodlight Max Luminaire Heads must be operated with official Floodlight Max Power Supplies only, as described in the user manual.
- If only one fixation point is used for luminaires installed higher >3m, a secondary fixation of luminaire and bracket (e.g. a restraining wire) is needed for safety reasons.
- All electrical connections must be made by a qualified person.
- Caution, risk of electric shock.
- Product in protection class I. All electrically conductive, metallic housing parts that can absorb voltage during operation or during maintenance in the event of a fault must be continuously connected to the protective earthing conductor.
- Do not stare at the operating light source: The luminaire should be positioned so that prolonged staring into the luminaire at a distance closer than 4 m is not expected.
